NAVEEN RAJ K

Software Test Engineer | Manual & Automation QA

Chennai, Tamil Nadu, India | +91 70948 42134 | naveenrajkrishnan2003@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

QA Engineer with production experience in manual and automation QA across Agile (SDLC/STLC) teams. Skilled in Java-based automation with Selenium WebDriver, TestNG, and POM, plus Playwright, Postman, Jira, and SQL, covering functional, integration, smoke, sanity, API, and regression validation. Delivered a **40%** gain in regression efficiency and **30%** faster release validation through automation, while sustaining high-quality production releases.

SKILLS

- **Programming Languages:** Core Java, TypeScript, SQL
- **Manual QA:** Functional, Smoke, Sanity, System, Exploratory, Security, Regression
- **QA Documentation:** Scenarios, Cases, Data, RTM, Defect Reports, Execution Reports
- **Automation & Frameworks:** Selenium WebDriver, Locators, JavaScript Executor, Dynamic Web Elements, Synchronization, TestNG, POM, Assertions, Maven, Configuration Management, Cross-Browser, Extent Reports
- **AI & Development:** AI-Assisted QA, AI-Based Case Generation, Script Generation, Bug Identification, Debugging, Code Review
- **Management & Version Control:** Jira, Git, GitHub

EXPERIENCE

Software Tester — Magdyn Private Limited — Chennai, Tamil Nadu

- Executed functional, integration, smoke, and regression cycles across multiple applications, reaching **95%+** coverage and confirming production readiness
- Engineered Selenium-based automation (Java, TestNG, POM) alongside Playwright, lifting regression efficiency by **40%** and cutting release validation time by **30%**
- Managed the defect lifecycle in Jira, partnering with developers to reach **98%** on-time resolution
- Led closure of **100%** of critical defects with Agile squads ahead of every production release

Software Testing Intern — DKL Career Development, Chennai — Jun 2024 – Sep 2024

- Designed and executed cases for the Login, Payment, and Booking modules directly from requirement specifications
- Verified fixes through smoke, sanity, and regression cycles, safeguarding quality in each release

PROJECTS

- Developed and validated a **Manufacturing ERP Application** covering quotation, sales, inventory, purchase, dispatch, invoice, customer, and reporting modules. Stack: Core PHP, MySQL, JavaScript, HTML5, CSS3, Apache/XAMPP, GitHub
- Designed **MoneyWise Mobile Application**, a personal finance app covering income, expenses, transactions, and dashboard summaries; verified end-to-end money flows. Stack: Core PHP, MySQL
- Built **Museum Ticket Booking System**, a multilingual chatbot-based booking platform; validated dialogue, language responses, booking workflows, confirmations, and data handling

CERTIFICATIONS

Software Testing – Manual & Automation — QSpiders, Chennai — Jun 2025 – Mar 2026

- Mastered manual QA: functional, integration, system, smoke, sanity, exploratory, and regression; scenario preparation, case writing, defect tracking, SDLC/STLC, Agile
- Applied automation & API validation: Selenium WebDriver, TestNG, POM, locators, waits, iFrame & window handling, Core Java (OOPs, collections, exception handling), Postman

EDUCATION

B.E. Computer Science and Engineering — Jaya Engineering College, Chennai — 2021 – 2025
